- **Mivors** Egypt
Mobility consultant | Android Developer 02/2016 - 12/2017
 - Gathering requirements & writing project documentation.
 - Implementing and refactoring apps from scratch.
 - Monitoring, supporting and validating client requirements.

Skills

Programming Languages: Kotlin • Java • React Native

Architectures: MVVM • MVP • MVI • Clean Architecture • Modularization • Design Patterns • OOP • SOLID Principles

Frameworks & Dependencies:

Android Jetpack • Jetpack Compose • Navigation Component • Retrofit • Ktor • Room Database • SQLite • XML • Gson • View Binding • RxJava • Coroutines • Flows • Dagger Hilt • Koin • Version Catalog • Unit Testing • UI Testing • Mockk • Mockito • Espresso • CI/CD • Klint

Tools & Environments: Android Studio • Eclipse • Jenkins • Git • JIRA • Slack • Trello • Appume • Selenium • Confluence

Work Process: Agile. Kanban

Education

- **Helwan University** Cairo, Egypt
Bachelor of Computer Science, | GPA: 3.2 / 4.0 2011 - 2015

Projects

My STC KSA

<https://play.google.com/store/apps/details?id=com.stc&hl=en>

Telecom app for STC customers to manage accounts, services, and payments

- Enhanced app scalability to support millions of active users.
- Implemented performance optimizations reducing load time significantly.
- Improved new service modules increasing in-app transactions.

Truecaller

<https://play.google.com/store/apps/details?id=com.truecaller>

Leading global caller ID and spam blocking app with hundreds of millions of users worldwide.

- Enhanced app performance and stability, ensuring smooth experience for over 300M active users.
- Implemented new features that improved spam detection accuracy.
- Collaborated with cross-functional teams to deliver major UI/UX improvements.

Ana Vodafone

<https://play.google.com/store/apps/details?id=com.emeint.android.myservices>

Telecommunications mobile app for Vodafone Egypt offering account management, billing, and services.

- Improved app architecture for faster load times and reduced crashes.
- Integrated new customer service features to boost engagement.

Neoleap

<https://play.google.com/store/apps/details?id=com.urpay.merchant&hl=en>

Comprehensive financial solutions platform for businesses in Saudi Arabia.

- Delivered secure mobile payment modules integrated with KSA regulations.
- Improved transaction processing speed by optimizing API calls.

Urpay

<https://play.google.com/store/apps/details?id=com.urpay.consumer&hl=en>

Digital wallet app offering payments, transfers, and currency exchange services in KSA.

- Integrated multiple secure payment gateways.
- Optimized user flows leading to higher transaction completion rates.

Her Care

<https://play.google.com/store/apps/details?id=se.hercare.video&hl=en>

Women's health app to track cycles, symptoms, and provide personalized health insights.

- Developed user-friendly UI with Compose for improved engagement.
- Increased retention rate through personalized notifications.
- Optimized data storage and sync for better offline experience.
